

**Subject:** Funding of grid upgrade Development programme for renewables.  
CER/03/016

Dear Clare,

My name is Gerard Sexton from Glenshesk, Templeglantine, Co.Limerick.I along with many others am very concerned about our envirement. I support renewables very much and especally wind energy.In my opinion Wind Farms need to be built at a faster pace. I would welcome the proposal to charging .0035c/kWhr to the consumer if it were to increase the number of Wind Farms being built as I think everyboby would benifit enormous in the long term.

Gerard Sexton.
