Subject: Price Increase proposal

Dear Sir, as a consumer and customer of Bord Gais, I would appeal to you not to approve the proposed increase to Bord Gais. Families are already under severe hardship and trying to keep homes and family heated, fed and clothed. Further hardship would ensue if this increase goes ahead in the future. I believe it is led by greed, pure and simple and would be totally against such a move on your behalf. Think of the families behind the customer and the pressure they are under.

Thanking you for your attention, Catherine Dolan
