Commission for Energy Regulation

Hi Sarah

I am writing to you to request a waiver for the water Tariff as the water in my area ([REDACTED] Belgooly Co.Cork) is undrinkable and apart from that it is causing unseen problems within my household. I have had to replace my shower 3 times, my kettle 5 times and I am on my second washing machine. I have recently had to install a salt filter unit which cost over €700.00 euros because I cannot continue to replace my appliances at this rate and I have to buy the salt every 3/4 weeks for same. I think you would agree until the water has been upgraded to suitable drinking condition it would be wholly unfair to expect me to pay any water tariff. Thanks for your time and I await your response.

Thanks & Rgds
