Subject:

Water Charges

To whom it concerns

I write today to voice my concern with the upcoming water charges in October. In general I am not opposed to water charges, however where I live in [REDACTED] Co Tipperary the hard water available in our estate is disgraceful. It is hard to justify having to pay water charges when we have to personally install water softeners and replace kettles, washing machines etc on a regular basis. Would you like to pay for a service that you are not getting?

I am sure I am only one of a number of people who have voiced their concerns and I do hope that they will be taken into account. All I want is the commitment from the Water Board that our monies will not go on huge salaries, expenses etc but spent wisely on improving the entire water system throughout the country. Its difficult enough to get by without having to pay another unjustifiable tax!

I trust that you will provide us with a service that is worthy of having a dedicated Water Board!

Regards

[REDACTED]
Co Tipperary
