water

Dear Sir,

I live in [REDACTED] co. Tipperary

I live in the hard water area , though this water is fit to drink it is very hard ,

This has an effect on my electrical appliances, Kettle Shower heads etc .

I am a single woman widowed ,, with three children living here in Ireland, In my own home . trying to make ends meet , yes i will pay the water charge when they come in but i would like a reduce amount because of the hard water . i have to replace kettles and shower heads monthly . washing machines about twice a year anything that has hard water going through it never last s.

Even all the kids fish killed off .

please take note I have a community employment job , where i get twenty euros extra than on the dole , I AM ACTIVELY SEEKING another job WITH NO luck

I do not know where i am going to get the money from ,

All my children are at high school , I have payed out so much money in the last few weeks . i am at my wits end .

My address is [REDACTED]

thanks
