Subject:

The Water Charges Are Going To Be To Expensive.

Dear Minister Kelly.

What I Want to say to you is. And as I did state to you, in my previous email, that I feel that the elderly, and the disabled people, won't be able to afford to pay the water charges. Because I also did state to you, in my previous email, that the elderly only has their old age pension to live on. And not only that. The disabled people only has their disability payments to live on. And if this state could allocate the free allowance. And make it part of the house hold benefits package. Then I can honestly say that it is going to make life a lot easier for these people.

Because as it is. There is over two hundred thousand vulnerable people, living in fuel, and food poverty, at the moment. And if they end up having to pay more bill's, that they can not afford. Then this could force the vulnerable people, to in further poverty.

So if you can look in to this issue. I will really appreciate it.

You can contact me by phone on [REDACTED]

Yours sincerely,

[REDACTED]
