Subject: Hard Water Area objection to Water Charges

To whom it may concern,

We have recently built a house in [REDACTED] in Co. Tipperary.

I was listening to Tipp FM this morning and they were saying that people living in Hard water areas have the right to object to the forthcoming water charges. This applies to our residence and we have are subject to hard water and intense Lime scale, so we must object to these water charges been enforced on this quality of Water in our area.

Kind regards
