Re: Interim Bellanaboy Entry Tariff

Dear Aidan,

I am writing in relation to the Gaslink and Bord Gais Networks letter of 2nd December 2009 relating to the proposed Interim Bellanaboy Entry Tariff.

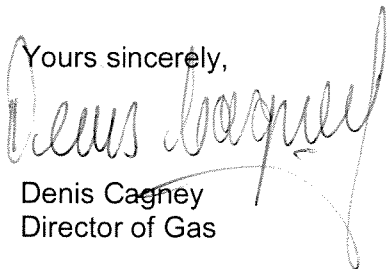

The Commission hereby approves the Bellanaboy Entry Tariff as follows

- Capacity €100.00 per peak day MWh
- Commodity €0.100 per MWh

In approving this tariff we recognise that it is "Interim and Nominal" only and it will not be taken as reflective of the enduring tariff or take from the general code rule that shippers booking capacity at an entry point will be subject to the enduring entry tariff prevailing at the time.

The Commission will carry out a full Consultation Process as part of the development of the enduring Bellanaboy Entry tariff.

Yours sincerely,

Denis Cagney
Director of Gas

c.c. Jack O'Connell (Gaslink), Avian Egan (Gaslink), Gerry Keane (Bord Gais Networks).
