Subject: TRIM: EV consultation

Hi Deirdre ,

"Renault Ireland welcomes the opportunity to respond to consultation on the recent consultation on the proposed ESB Networks Electric Vehicle pilot project.

Renault believes that electric vehicles will increasingly become part of the vehicle fleet in Ireland and within the wider European market as the European Union and national governments seek to address climate change and to minimise greenhouse gas emissions. It is Renault's belief that the environmental, economic and financial benefits for the electricity customer and the country as a whole, which will be delivered through a programme of electrification of transport in Ireland will be optimally delivered in the context as set out in ESB Networks proposed project. As such Renault fully supports the proposal"

Regards
Conor Dixon
