Figure B2 Forecast Irish Gas Demand – Grey Scenario³⁴

¹ Source: Gas Networks Ireland, Network Development Plan

² Gas Demand is summarised by 'Gas Year' i.e. the period from 1 October to the following 30 September

³ Discrepancies between the total and the sum of Power, I/C and Res can be attributed to own use.

⁴ The grey and green scenarios represent a range of potential gas demands, to be used for network planning purposes and are intended to represent a low growth and a higher growth forecast respectively.
